

Shipping from China is
plain sailing with DPD

technology delivering

Saving money is plain sailing
with our China Import Service

DPD's China Import Service is available for all sizes of shipments. Whether it's several pallets or a few boxes, we'll give your shipment the same level of care as a full container load and track your consignment every step of the way.

Customer Benefits

- A flexible service whatever your shipment size
- Simple solutions for customers who don't always need a full container
- Regular updates on shipment status keep you in touch with your goods on and off the water
- Option to deliver direct to your customer for a fast turnaround

Key Features

- Any size of shipment
- Door-to-door
- Port-to-door
- 35 day delivery time
- Delivery status available online
- Full ETA updates
- Break bulk or warehousing

DPD's China Import Service makes importing simple for the shipper who doesn't always need a full container.

Don't just take our word for it:

Gill Trading regularly import a variety of retail goods into the UK from China. They have anything from one to 10 pallets to ship each month and rely on DPD to get their shipment from the Ports of Shanghai, Ningbo or Hong Kong, to their various retail outlets in the UK.

Mr Amar Gill from Gill Trading comments: *"DPD's China import service is great for the smaller shipper with every box or pallet treated with the same care as a full container load. It's an efficient and cost effective service that takes all the hassle out of importing, with just one point of contact. I wouldn't hesitate to recommend this service to anyone".*

One simple solution

DPD's China Import service really is easy to use with just one supplier, one label, one invoice, one website, and one price. Give us a call for a quote based on up-to-the minute shipping rates on **0121 665 3270**.
